ABOUT US

Rooted in Experience. • Driven by Passion. • Delighting Your Kitchen.

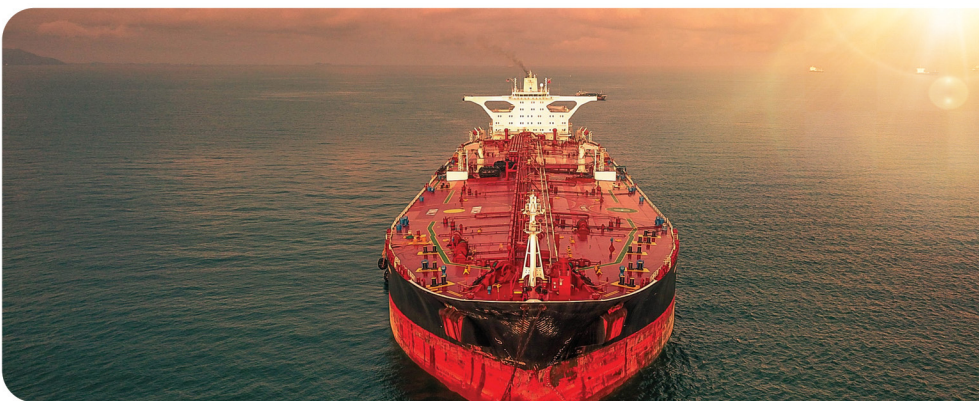

Welcome to Akshaya Golden Crust, where global trade meets a passion for quality. With over 20 years of proven expertise in the import and export industry, we have built a legacy of trust, reliability, and seamless logistics.

While our journey began two decades ago navigating the complexities of international trade, our evolution has led us to our truest passion: sourcing and trading the world's finest cooking oils and premium rice, dry red chilli. Today, we operate as a premier cooking oil trading company and a trusted importer/exporter of staple foods that bring families together.

OUR JOURNEY & EXPERTISE

For more than 20 years, we have mastered the ins and outs of global supply chains, customs, and quality control. Recently, we channelled this deep industry knowledge into a specialized focus on cooking oils and rice. Why? Because we believe that everyday meals deserve extraordinary ingredients.

We aren't just moving commodities; we are bridging the gap between world-class producers and your market. Our seasoned team handles everything from bulk trading to meticulous quality assurance, ensuring that every shipment meets the highest international standards.
